I. Strategic Raw Materials

Plans call for the following production figures for the year 1950:

1. Steel

- 1) Plant: VEB Steelworks Riesa
Equipment: 6 Siemens-Martin furnaces of 120 tons each
Production: 270,000 tons per year
- 2) Plant: VEB Steelworks Unterwollenborn
Production: 240,000 tons per year
- 3) Plant: SAG Iron works Thale
Production: 144,000 tons per year
- 4) Plant: VEB Steelworks Hennigsdorf
Production: 180,000 tons per year
- 5) Plant: SAG Krupp-Gruson, Magdeburg
Production: 120,000 tons per year
- 6) Plant: SAG Krautheim, Chemnitz
Production: 72,000 tons per year
- 7) Plant: SAG Steelworks Silbitz/Elster
Production: 72,000 tons per year
- 8) Plant: VEB Steel plant Groditz
Production: 40,000 tons per year
- 9) Plant: VEB Steel plant Freital-Doehlen
Production: 24,000 tons per year

The total yearly production of the steel plants listed above amounts to 1.17 million tons. This compares with 12 million tons for the Federal Republic.

25X1

Recipient: SAG and VEB factories in the Soviet occupation zone. Part of the production will also go to the Soviet Union, Hungary, Czechoslovakia and Poland.

2. Copper

Plant: VVB Mansfeld Eisleben, Saxony-Anhalt

Production: During 1950, from ore mined by this company 8,000 tons
Ore from other sources and scrap metal: 4,000 tons
Total 12,000 tons

Recipient: SAG Buntmetall-Walzwerk, Hettstedt. From there, distribution to the armament factories in the Soviet Zone. Also, shipments to the Soviet Union, Czechoslovakia, Poland, Hungary.

3. Uranium Ore

Plants: Wismut-AG, Aus der Gegend, has some 300 pits in the Soviet Zone.

Recipient: Exclusively the Soviet Union, in the form of ore concentrate.

4. Aluminuma. Aluminum ore

Plant: SAG Elektrochemisches Kombinat Bitterfeld.

Production: At the present time, the plant is equipped to produce 3,000 tons per year. It is planned to expand capacity to 15,000 tons by 1 October 1951.

Raw material: Imports of 6,000 tons per year of alumina from the Martins Works near Neuss/Rhineland, partly direct and partly indirect and partly indirect through Sweden.

b. Aluminum for remelting

Plants: SAG Elektrochemisches Kombinat Bitterfeld
VEB Leichtmetallwerk Rackwitz near Leipzig

Production: 10,000 tons per year.

Quality: Technically pure, up to 10 percent magnesium (hydronalium)

5. Chrome

Plant: VEB Elektrowerk Liprendorf

Production: 300 tons monthly

Raw material: Imported from Sweden and Turkey.

6. Manganese

Plant: VEB Elektrowerk Liprendorf

Production: 200 tons monthly

Raw material: Imported from the Soviet Union.

7. Silicium

Plant: VEB Electric Plant Lippendorf

Production: 1600 tons monthly

Raw material: From mine in Oberschoenau near Freiburg

II. Heavy Armaments8. Tanks

✓ Plant: VVB Abus Wildau Plant near Berlin

Start of Production: September 1950. At that time it employed 300 men,
but this number is to be increased to 600 in November
1950.

✓ Plant: SAG Bleichert, Leipzig-Gohlis

Start of Production: May 1950

Construction: approximately 2,50 meters long

Cover Designation: "Capillary Tractor" ("Rampenschlepper")

9. Motors for Tanks T-34

Plant: VEB Walzwerk Kirschmooser (Brandenburg)

Production: 100 motors monthly.

10. ✓ Plant: VEB Getriebebau Kirschau, Kirschau near Bautzen

Production: 20 to 25 heavy gears per month.

Raw material: Steel castings from SAG Gearing Plant Wetzlar, Leipzig-Plagwitz.

Construction: Bevelled pinion shaft of 30 to 36 teeth, modulus 2.5.
Large pinion approximately 100 teeth, modulus 2.5

Recipient: Wetzlar (SAG), Leipzig-Plagwitz

Recipient: Getriebebau Wetzlar (SAG), Leipzig-Plagwitz.

✓ 11. Horn Gearing for Tanks

Plant: VVB Abus, Dessau plant.

Start of Production: May 1950.

✓ 12. Sprocket Wheels for Tanks

Plant: SAG Reparaturwerk Kirschmooser

Production: approximately 270 pieces a month.

Plant: SAG Peniger Maschinenfabrik, Penig/Sachsen

Production: 2 tons per month

Recipient: [] Wildau near Berlin.

Plant: SAG Steel Plant Schitz near Crossen/Elster

Production: 40 tons monthly

Plant: VEB Steel Plant Borsdorf near Leipzig

CONFIDENTIAL

25X1

CENTRAL INTELLIGENCE AGENCY

25X1

✓ Plant: VEB Lauchhammer-Werk, Lauchhammer.
Production: 8 tons per month

✓ Plant: SAG Buckau-Wolf, Magdeburg; Production not stated

✓ Plant: Schaeffer & Budenberg, Magdeburg.
Production: 450 tons per month

✓ Plant: SAG Krupp-Gruson, Magdeburg
Production: 20 tons per month

Plant: VEB Foundry Torgelow; production not stated

Plant: SAG Maschinenfabrik Zeitz; production not stated

✓ Plant: VVB Gesko, Leipzig
Production: 48 tons per month

13. Tank Chains

✓ Plant: VEB GUS, formerly the Leipzig Iron and Steelworks Meier & Weichelt, Leipzig W 34.

Production: 8,000 chain links per month

✓ Plant: SAG Schaeffer & Budenberg, Magdeburg
Production: 700 tons per month

✓ Plant: SAG Krupp-Gruson, Magdeburg
Production: 30 tons monthly

✓ Plant: SAG Buckau-Wolf, Magdeburg; production not stated

✓ Plant: VEB GUS Steelworks Ueckermünde
Production: 45 tons monthly

✓ Plant: VEB Lauchhammer-Werk, Lauchhammer
Production: 10 tons monthly

✓ Plant: VEB Maschinenfabrik Goerlitz
Production: 10 tons monthly

✓ Plant: SAG Steelworks Silbitz near Crossen/Elster
Production: 1,000 chain links a month

✓ Plant: SAG Wismut-AG Werk 544, Zwickau
Production: 40 complete chain drives, each 12 meters long, 40 centimeters wide, per month

Plant: VEB (L) Werkzeugunion Schmalkalden

Product: Complete chain drives

Material: Steel castings from VEB GUS, Leipzig

Recipient: VEB GUS, Leipzig and VEB Maschinenfabrik Salzgitter

✓ Plant: VVB Gesko, Leipzig
Production: 20 tons of chain links per month

14. Armored Plates

✓ Plant: VEB Steelworks Kirchmoosener
Specifications: 5 to 8 centimeters thick, about 1 meter long, 60 cm wide
Production: 45 tons daily

CONFIDENTIAL

25X1

CENTRAL INTELLIGENCE AGENCY

-5-

25X1

Plant: SAG Walzwerk für Buntmetalle, Hettstedt
Quality: High alloy steel
Specifications: 120 mm thick

Plant: RNU Betrieb Magdeburg, formerly Silva-Works
Product: Machining of armored plates which are supplied as raw material from the rolling mill Kirchmooser.

✓ Plant: SAG Stahlwerk Silbitz near Grossen/Elster
Specifications: 5 to 8 cm thick, approximately 1 m long and 50 cm wide
Production: 200 plates during November 1950. Expansion is underway.

15. Link Pins for Tanks

Plant: VEB Dampfantriebswerk Grossenhain/Saxony
Production: 100,000 pieces per month

✓ Plant: VEB Maschinenfabrik Goerlitz

✓ Plant: VVB Gosko, Leipzig
Production: 10 tons monthly

✓ Plant: VEB Sächsische Edelmetallhärterei, Leipzig
Product: Hardening of 60 tons of pins per month

16. Centralized Lubrication

Plants: VVB Teltow, formerly Askania Works

Order till end of 1950: 65,000 metering pumps (Dosierungspumpen)

Plant: VEB Messgeraete, Werk Treuenbrietzen

On order till end of 1950: 16,000 metering pumps

17. Tarpet Levers and Cylinder Liners for Tanks

Plant: VEB Harzer Werke, Blankenburg/Harz

Production: 6,000 sets per month

18. Tank Cupolas and Parts

✓ Plant: SAG Krupp - Gruson, Magdeburg

Plant: VEB Lowa Waggonbau Goerlitz

✓ Plant: SAG Steelworks Frankleben near Merseburg
Production: 250 pieces monthly

19. Couplings for Tanks

Plant: SAG NEMA, Netzschkau/Vogtland
Employs between 1,400 to 1,500 workers

Product: Couplings for tanks

Code name: Couplings for wood-clearing machines (Kupplungen fuer Walddroemaschinen).

CONFIDENTIAL

25X1

CENTRAL INTELLIGENCE AGENCY

-6-

25X1

20. Radiators for Tanks

Plant: SAG Reparaturwerk Kirchmoeser
Production: 50 boxes per month

21. Aiming Devices for Tanks

Plant: SAG Reparaturwerk Kirchmoeser
Production: 1,200 pieces per month

22. Tank Cars for Armored Units

Plant: Ifa, Schalldaempfer- und Karosserieteilewerk, formerly
Eberspaecher G.m.b.H., Leipzig W 31, Markranstadterstr. 1

Production: Tank cars are mounted on truck chassis which are furnished by
other VEB Factories. Monthly production amounts to 70 cars.

23. Castings for Heavy Artillery

Plant: SAG Steelworks Frankleben near Merseburg

Specifications: Gun carriages 4 meters long, 1.70 meters wide and 1.10 meters
high

Production: 40 pieces a month

Recipient: VEB Maschinenfabrik Halle

24. Machine Parts for Artillery Pieces

Plant: VEB Maschinenfabrik Halle
Product: Completely mounted gun carriages
Production: 32 units per month
Code: "Hochofenverschlussmaschinen"

25. Ammunition for Carbines

Plant: VEB Crottendorfer Metallwarenfabrik, Crottendorf/Erzgebirge
The plant employs 140 men.

III. Signal Equipment

26. Radio Truck (Transmitter and Receiver)

Plant: SAG Sachsenwerk Radeberg
Specifications: Microwave radio set, type 901 and 902, known as "Wuerzburg"
apparatus (a type of radar set). Transmitting capacity 6
Watts, Apparatus for Command headquarters built into 3-ton
Studebaker, Price 150,000 Marks inclusive of truck.

Production: 48 trucks per month
Sub-contractor: VEB Eschbach in Radeberg
Casting of metal boxes for radar sets (Wuerzburggeraete)

27. Combined Transmitter and Receiver Installations

Plant: VEB-RFT (Radio-Fernmelde-Technik)
Electromechanical Workshops Dabendorf, Teltow District.

Product: 100,200,500 and 800 Watt transmitter for the Red Army and People's Police, patrol boats and troopships.

Production: 250 sets of 100 Watts Transmitters in 1950 for patrol boats and VP.
12 sets of 200 Watts
12 sets of 800 Watts

28. Field Telephone Cables

Plant: SAG Kabelwerk Oberspree
SAG Kabelwerk Koepenick
Production: 100 tons per month for both plants

29. Amplifier

Plant: VEB Funkwerk Koellada
Production: 110 sets of 40 and 60 Watts per month

IV. Transportation Equipment30. Heavy Freight Flat Cars

Plant: VEB Lwa Waggonbau, formerly Wumag, Goerlitz
Specifications: Fixed flatcars with side racks, 28 meters long
Production: 12 cars monthly

31. Well Wagons (Drop frame cars)

Plant: VEB Westsachsische Stahlbau, Leipzig
Specifications: Drop frame cars, 16 meters long, can run on normal and narrow gauge trucks, capable of carrying tanks and guns.
Production: 5 cars monthly since 1 September 1950

Plant: SAG Unruh & Liebig, Leipzig
Production: 4 cars per month.

32. Generator Cars

Plant: SAG Waggonbau Weimar
Production: 60 cars during 1950

33. Railroad Rotary Cranes

Plant: SAG Unruh & Liebig, Leipzig
Production: 4 cranes of 50 tons per month

34. Motor Trucks

Plants: VVB Ifa, Werk Horch, Zwickau; 3 ton diesels.

VVB Ifa, Werk Phaenomen, Zittau; 2.5 ton gasoline truck.

VVB Ifa, Werk Frano, Hainichen/Saxony; 1.5 ton load capacity.

Production: 80 3-ton trucks per month
150 2.5 - ton trucks per month (of which 15 are military ambulances).

CONFIDENTIAL

25X1

-8-

35. Automobiles

Plant: SAG Avtovelo (BMW) Eisenach/Thuringia

Specification: Type No. 340, 5-seater, 2 Liter.

Production: 280 to 300 cars per month.

36. Motorcycles

Plant: SAG Avtovelo, Eisenach

Specification: Sport model R 35, 350 ccm

Production: About 200 monthly.

Plant: SAG Siron Works, Suhl/Thuringia

Production: 200 monthly, 500 ccm with sidecar

37. Tires for Trucks, Autos, and Motorcycles

Plant: SAG Buna, Schkopau near Merseburg

Product: Tires and tubes for vehicles in all sizes.

Production: Monthly during 1950 some 10,000 covers for trucks, autos, and motorcycles, tubes in the same amount. 16,000 bicycle tires and 35,000 inner tubes.

Plant: VEB Gummiwerk Riesa, Werk I and II

Type: Tires and tubes for

trucks: 1100 x 20, 800 x 20, 750 x 20, 700 x 20

autos: 550 x 16, 500 x 16

motorcycles: 400 x 19

Production: 1950: 96,000 tires, of which 40% 750 x 20 and 20% 800 x 20
45,000 inner tubes

Planned 1951 production: 120,000 tires, 70,000 tubes.

Plants: The VEB Reifenwerke Ketschendorf near Fuerstenwalde and the Tire Factory Mueller, Berlin-Schmoeckwitz together produce at least five tires as much as the VEB Riesa Factory.

38. Auto Jacks

Plant: SAG Maschinenfabrik Penig/Saxony

Type: 2.5 to 3 ton lifting capacity for Soviet type SJS 5

Production: 6,000 sets in 1950

Recipient: Russian Fieldpost Unit 16663, Wildau near Berlin

39. Auto Speedometer

Plant: Messgeraetewerk Leipzig RFT, formerly Theodor Horn

Type: Speedometer, Studebaker system

Production: 1949: 20,000

1950: 30,000

V. Chemical Products

a) Chemicals for Explosives

40. Crude Nitric Acid

Plant: SAG Electrochemisches Kombinat Bitterfeld

Production: 3,600 tons monthly, referred to as HNO_3 . Solution contains 45 to 52 percent. It is further processed, the main part becoming ammonium nitrate of fine which is a fertilizer and another part becoming ammonium nitrate.

CONFIDENTIAL

25X1

-9-

41. Ammonium Nitrate

Content: 35 percent

Production: 1200 to 2000 tons per month, depending on the quantities requested by
VEB Explosives Plant Schoenebeck and
VEB Explosives Plant Gnaschwitz

42. Bi and Trinitrotoluene

Plant: VEB Explosives Plant Schoenebeck/Elbe

Production: At least 250 tons monthly

Recipient: Among others the Explosives Plant Gnaschwitz near Bautzen, part
of it is processed into nitroglycerin in the plant itself.

43. Nitroglycerin

Plant: VEB Explosives Plant Schoenebeck/Elbe

Production: 250 to 300 tons monthly

Plant: VEB Explosives Plant Gnaschwitz near Bautzen

Production: 1,000 tons monthly including donarite.

Plant: Chemical Works Buna Schkopau

Production: 300 kilograms daily

44. Highly Concentrated Nitric Acid

Plant: SAG Chemical Works Schkopau

Production: 150 to 200 tons per month.

Plant: SAG Nitrogen Plant Piesteritz

Quality: 97 percent HNO_3

45. Hydrogen Peroxide

Plant: SAG Celluloid Plant Eilenburg

Quality: At present, 31 to 45 percent by volume. Present use is in pharmacy.
May at any time be converted to the production of explosives.

46. Collodium Cotton (Explosive Cotton)

Plant: SAG Celluloid Plant Eilenburg

Production: Approximately 110 tons per month

Recipient: Explosive Plants Schoenebeck and Gnaschwitz, among others.

Plant: SAG Nitrogen Plant Piesteritz

Code name: Iporka

47. Oxalic Acid

Plant: SAG Electrochemisches Kombinat Bitterfeld

Production: 135 tons per month

Recipient: Unknown. The cars leave the plant under military guard.

CONFIDENTIAL

25X1

CENTRAL INTELLIGENCE AGENCY

-10-

25X1

b) War Chemicals48. Cyanide of Potassium

Plant: VEB Sugar Refinery Dessau

Product: Molasses of the sugar factories of the Soviet Occupation Zone.

Plant: SAG Chemical Factory Buna Schkopau

Production: 30 tons monthly

49. Sulphite Dichlorodiethylene

Plant: SAG Chemical Plant Buna Schkopau

Production: 25 ton monthly

50. Phosphorus

Plant: SAG Chemical Plant Buna Schkopau

Production: 15 tons monthly

c) Jet Fuels51. Jet Fuel with Nitro Base

Plant: SAG Chemical Plant Buna Schkopau

Production: 400 to 500 kilograms daily

52. Jet Fuel with Gasoline Base

Plant: SAG Benzinwerk Boehlen

Production: 2,000 tons per month

53. Jet Fuel with Alcohol Base

Plant: SAG Leuna

Production: 150 tons of raw methanol per day
120 tons of raw isobutyl per day

Additional Product: Part of the raw methanol is used for the production of formaldehyde of 35 percent.

54. d) Aviation Gasoline

Plant: SAG Gasoline Plant Boehlen

Synthetic Installation (DHD Anlage)

Quality: 96 octane

Production: 6,000 tons monthly

All of the above fuels are shipped to the East via Brest-Litovsk.

55. e) Automotive Gasoline and Diesel FuelPlantsGasoline

(monthly 1950 production)

Diesel Fuel

SAG Gasoline Plant Boehlen	13,000 tons	2,000 tons
SAG Synthetic Plant Schwarzheide	10,000 "	1,600 "
SAG Hydrogenation Plant Zeitz	15,000 "	2,500 "
SAG Leuna Plant	7,000 "	1,100 "
SAG Tar Products Plant Rositz	8,000 "	1,500 "
SAG Tar Products Plant Koepsen	7,000 "	1,100 "
SAG Tar Products Plant Vebau	3,000 "	600 "
VEB Mineral Oil Plant Luetzkendorf	8,000 "	1,500 "
	70,000 tons	12,000 tons

f) Other Chemicals56. Calcium

Plant: SAG Elektrochemisches Kombinat Bitterfeld
Quality: Distilled calcium of highest purity
Use: Probably for the reduction of uranium
Production: 540 tons during 1950

57. Heavy Water

Remarks: Among those who worked in the field of heavy water in the Leuna Plant were Director Dr. Herold, Dr. Asinger, Dr. Kaufmann and chief foreman Rudolf; in 1946 they were removed to Moscow where they are working in the same field.

VI. Field Equipment58. Uniforms for the Red Army

Plant: VEB Konfektion Neugersdorf/Saxony, formerly Reichelt Company, employs some 500 workers in addition to numerous home workers.

Production: The plant works entirely for the Red Army. Details are not known.

59. Soldier's Pack and Straps

Plant: Lederfabrik Ostritz, Zittau District.

60. Steel Helmets

Plant: Caspari Eisenstanzwerk, Markranstaedt near Leipzig
Date of info: 5 January 1951
Product: Recently, the plant received an order for 1 million (?) steel helmets. The plant has been making tank chains.

61. Marching Compass

Plant: Askania-Werke Teltow VEB
Production: From 1 January to 1 September 1950 plant manufactured 65,000 pocket compasses.

62. Field Glasses

Plant: VEB Zeiss, Jena
Product: field glasses of various types

63. Cameras, Optical instruments

Cameras:

Plant: VEB Zeiss, Jena
Product: Cameras of various types
Recipient: Occupation Army and People's Police

Optical Instruments:

Plant: VEB Zeiss, Jena
Production: Optical instruments for the Red Army and People's Police, among which were 50 aiming devices per month (type A 1)

CONFIDENTIAL

25X1

CENTRAL INTELLIGENCE AGENCY

-12-

25X1

64. Other Armament Material

Plant: VEB Zeiss, Jena

Product: Diamonds 10 to 15 mm square, 0.07 mm bore, for Navy submarines.

Production: About 900 per month

65. Winches for Captive Ballons

Plant: SAG Betrieb Transmasch, Unruh & Liebig, Leipzig, Naumburgerstrasse.

Product: The same as for the former Wehrmacht.

66. Electro-Magnets for the Russian Navy

Plant: ABUS Maschinenfabrik Dessau VEB

Product: Electro-magnets, rigid, approximately 1.30 meters wide, 1.20 meters long, in various sizes otherwise.

Production: 250 pieces per month

67. Echo Sound Installations

Plant: VEB "RFT" Koellada

Production: 60 installations during 1950

68. Centrifugal Pumps for Submarines

Plant: VEB Maschinenfabrik Goerlitz

Type: Pump output is 300 Liter/Minutes

69. Field Kitchen Boiler

Plant: SAG Eisen- und Huettenwerk Thale

Production: 150 per month

70. Special Accumulators for Tanks and Airplanes

Plant: SAG Akkumulatorenfabrik Oberschoeneweide

Production: 100 tons per month.

71. Installations for Armament Production

Plant: SAG Schaeffer & Budenberg, Magdeburg

Type: Rolling mill installations

Recipient: Soviet Union

Plant: SAG Krupp-Gruson, Magdeburg

Type: Rolling mill installations

Production: 20 million Marks in 1950

Base plates for cartridge drawing machines

Recipient: Soviet Union

Plant: SAG Louis Schoprer, Leipzig

Type: Cartridge drawing machines

Plant: SAG Maschinenfabrik Sangerhausen

Type: Rolling mill installations

Production: 600,000 Marks in 1950

Recipient: Soviet Union

25X1

Plant: VEB Maschinenfabrik Meuselwitz
 Type: Heavy lathes for rolling mills and other machine tools
 Recipient: Soviet Union

Plant: SAG Polysius Dessau
 Type: Rolling mill installations
 20 million Marks worth in 1950
 Recipient: Soviet Union

Plant: SAG Waggonfabrik Ammendorf
 Type: Parts for rolling mills of a value of 1.5 million Marks in 1950
 Recipient: Soviet Union

Plant: SAG Buckau - Wolf, Magdeburg
 Production: Monthly during 1950: 65 diesel motors of 320 HP
 40 diesel motors of 100 HP
 Rolling mill installations
 Machine tools
 Foundry machines
 Recipient: Soviet Union and shipyards of the Soviet Occupation Zone for the
 lugger and seiner program.

Plant: VEB Abus, formerly Hartung & Jachmann, Berlin-Charlottenburg
 Production: 100 tons of foundry machinery per month in 1950
 Recipient: Soviet Union

Plant: SAG Henry Fels, Erfurt
 Production: Monthly 200 large machine tools (clipping machines, punchers, crank
 presses).
 Recipient: Soviet Union

Plant: SAG Kugellagerfabrik, Bochlitz-Ehrenberg near Leipzig
 Type: Roller bearings of all types
 Recipient: Armament plants of the Soviet Zone and the Soviet Union

Plant: VEB Dieselmotorenwerk Rostock
 Production: In 1950 monthly 40 dieselmotors of 100 HP for the seiner program
 Recipient: SAG Neptunwerft Rostock and Volkswerft Stralsund

Plant: SAG Uhren- und Maschinenfabrik Thiel, Ruhla/Thuringia
 Type: Planing and milling machines, automatic lathes.
 Production: 21 million Marks in 1950
 Recipient: Soviet Union

Plant: Privatbetrieb Dieker & Weinberg, Halle
 Type: Automatic grease lubrication installations for rolling mills
 Production: 500,000 Marks
 Recipient: SAG Polysius, Dessau, and the Soviet Union

Plant: VEB Maschinenfabrik Dessau (Abus)
 Type: Foundry machines, weight lifting magnets, gears for machine tools.
 Production: 750,000 Marks in 1950
 Recipient: Soviet Union

Plant: VEB Fraesmaschinenbau Chemnitz (VVB "WM")
 Type: 30 milling machines, value 250,000 Marks
 Recipient: Soviet Union

Plant: VEB Elmo Werk (formerly Bamag), Dessau
 Type: In 1950 170 forging machines for boring tools (uranium mining)
 Recipient: Wismut-AG

Plant: SAG Polysius Dessau
 Type: 100 ore mills for uranium ore during 1950
